

# Just talk about it

By Anna Domett, Otumoetai College

## VERSE 1

Don't talk to me, I'm not worth the time of day  
Don't look at me, I hear the words you don't say  
Shove, push against the wicked  
The world they force on you just walk the other way

## CHORUS

You don't see who you are, underneath the lies they preach  
Is an angel in waiting so let the poison out  
Just talk to me,  
Please talk, talk about

## VERSE 2

Don't stand alone find someone to help you through  
Don't blind yourself to all the things you can do  
Stronger than they think, smarter than they care  
The world they force on you just walk the other way

## CHORUS

You don't see who you are, underneath the lies they preach  
Is an angel in waiting so let the poison out  
Just talk to me,  
Please talk, talk about
